“ The word *Solidarity* appears 16 times in the Treaties. Our European Budget is a living proof of financial *Solidarity*. Euro is an expression of *Solidarity*. Our development policy is a strong external sign of *Solidarity*. And when it comes to managing the refugee crisis, we have started to see *Solidarity*. I am convinced much more *Solidarity* is needed (...) *Solidarity* is the glue that keeps our Union together (...) When the Portuguese hills were burning, Italian planes doused the flames. When floods cut off the power in Romania, Swedish generators turned the lights back on. When thousands of refugees arrived on Greek shores, Slovakian tents provided shelter. ”

(Extract from the State of the European Union speech 2016 by European Commission President Jean-Claude Juncker in the European Parliament on 14 September 2016)
